

172 evolution as genetic pdf

The theory of evolution is a naturalistic theory of the history of life on earth (this refers to the theory of evolution which employs methodological naturalism and is taught in schools and universities).

Evolution - Conservapedia

Mate choice, also known as intersexual selection, is an evolutionary process in which selection is dependent on the attractiveness of an individual's phenotypic traits. Evolutionary change is possible because the qualities that are desired in a mate are more frequently passed on to each generation over time.
