The critical period hypothesis is the subject of a long-standing debate in linguistics and language acquisition over the extent to which the ability to acquire language is biologically linked to age.

Critical period hypothesis - Wikipedia

Les Watson, well known for his work on the Saltire Centre, is now a freelance educational consultant on library, learning and IT issues. He has worked in education for 40 years as a teacher, lecturer, dean and pro-vice-chancellor and has managed libraries and information services in several organizations.

Better Library and Learning Space: Projects, trends, ideas

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
