Positions in Mathematical Physics The IAMP announces available and wanted positions in Mathematical Physics. If you want to announce an available position on this site, please read the guidelines.

IAMP | International Association of Mathematical Physics

Statistics is the mathematical science involving the collection, analysis and interpretation of data. A number of specialties have evolved to apply statistical and methods to various disciplines.

List of fields of application of statistics - Wikipedia

-2- Lognormal Statistics Count Median Diameter (CMD) When statistically describing lognormal distributions, the geometric mean diameter (D_g) of normal

Aerosol Statistics Lognormal Distributions and $dN/d\log D_p$

Mathematical economics is the application of mathematical methods to represent theories and analyze problems in economics. By convention, these applied methods are beyond simple geometry, such as differential and integral calculus, difference and differential equations, matrix algebra, mathematical programming, and other computational methods.
