Nanoparticle Inks for Printed Electronics

Our integrated circuits and reference designs for automotive passive entry passive start (PEPS) fob modules help you create compact, efficient and customizable solutions for operating off a single coin cell battery.

Passive entry passive start (PEPS) key fob integrated

Philips Research is a global organization that helps Philips introduce meaningful innovations that improve people's lives. We provide technology options for innovations in the area of health and well-being, targeted at both developed and emerging markets.

Meet Philips Research - Research | Philips

Mass scale automation that's open, intelligent, and proactive. Discover the first closed-loop, mass scale automation solution that embraces multi-vendor networks

Service Provider Network and Technology Services - Cisco

LG Business offers solutions for hotels, restaurants, offices, shops and more, keeping them comfortable, secure and stylish. Choose from a range of air conditioning units, including room and split air conditioning systems.

LG Business Solutions | LG India Business

A substrate (also called a wafer) is a solid (usually planar) substance onto which a layer of another substance is applied, and to which that second substance adheres.

Substrate (electronics) - Wikipedia

Our integrated circuits and reference designs help you create next-generation smartphone designs. From industry-leading power management and battery management technology to new Smartamp technology that provides perfect sound quality, our analog and embedded products will help you get to market faster.
